Orders with the cost of the buildings which is about 2700 Rs is met in the proportion of 1/8th or 2/8ths by the Imperial Funds & Provincial Funds respectively, but in this case, the Superintendent proposes to bear the whole cost. I think this is fair case also, if Provincial Funds can be made to bear 2/8ths cost as is usually done & so, I have provided in the Budget for 1891-92 a sum of Rs 900 only.

Sir,

I have the honor to state for your information that the Municipal Board of Alur, taluk Head Quarter town of Maharajpur droog Taluk have sanctioned Rs 3250/ for a Dispensary in their town Bangalore before spending the money upon the building; they wish to ascertain if any help could be Expended to them to meet the Establishment and Medicine charges by Government. For either or both these purposes they could afford to set apart about Rs 180/ a year from their annual

revenue. As this town is buying
to help itself, I recommend it to

case for your favorable consider-
ation and support.

The place itself is on
the confines of the Malvad and
Medical institution would be very
serviceable for about 100 villages
in the neighbourhood which would
be from 10 to 15 miles from the
nearest dispensary. In my opinion
multiplying such institutions will
be the means of saving many
lives which are now lost every
year for want of proper and
timely medical aid. An
ordinary cheap building
may be constructed and if
thought more advisable about
Rs 3,000/- could be invested
so as to yield an annual
interest to go towards the main-
tenance

maintenance of the Establish-
ment on of Medicines in part.
